Two coordinates for each residue

The mod 24 address is equivalent to its mod 8 and mod 3 addresses.

Residue modulo 3	0	1	2	3	4	5	6	7
0	0	9	18	3	12	21	6	15
1	16	1	10	19	4	13	22	7
2	8	17	2	11	20	5	14	23

Residue modulo 8

Each cell contains the unique residue j modulo 24 with those two addresses.
